

## FOR IMMEDIATE RELEASE

### **Indecomm Selected for HW Tech100 by HousingWire Magazine** *List Recognizes Most Innovative Technology Companies in US Housing Industry*

#### Highlights:

- Indecomm selected for HW Tech100
- Indecomm Software as a Service (SaaS) and Outsourced Product Development (OPD) drive the selection
- Companies evaluated on dimensions of innovation, including market influence, market potential, unique solution, growth, elegant implementation, and “it” factor

Edison, NJ – March 17, 2016 – Indecomm Global Services, a leader in business process outsourcing, learning, and technology solutions, is pleased to announce that it has been chosen for the HW Tech100 by HousingWire, an influential news and information source for the US mortgage market. Companies were evaluated on aspects of innovation, including market influence, market potential, unique solution, growth, elegant implementation, and the “it” factor. The HW Tech100 can be found at <http://www.housingwire.com/articles/36387-the-2016-hw-tech100>.

“Indecomm’s value proposition in risk management, document management, and mortgage learning has always been based on technology and technology-based platforms for delivering service,” said Rajan Nair, CEO, Financial Services Division, Indecomm Global Services. “This is especially true with regard to Indecomm’s SaaS and OPD. The quality of our technology allows us to build long term relationships with our clients and to earn the recognition this reward provides.”

“The companies in the HW Tech100 are providing innovative solutions to the traditionally hide-bound mortgage finance industry,” said HousingWire Editor-in-Chief Jacob Gaffney. “In the face of rising costs to originate and service loans, a still-volatile housing market and multiplying regulations, these innovations are crucial to the survival and profitability of those in our industry.”

In a trend that accelerated rapidly from last year, a large majority of the companies on the list are working feverishly on automating systems or solutions for the much-anticipated eMortgage, according to HousingWire.

“It’s incredible to see the universe of tech options now available to our industry,” said HousingWire Magazine Editor Sarah Wheeler. “Some of the best and brightest minds are clearly working in our space to address the extraordinary challenges our industry is facing.”

Indecomm attacks industry issues from both a consultative framework and a computing environment. Systems are designed by teams highly experienced in the mortgage process, technology design, and development. These platforms are proprietary, web-based tools used internally by Indecomm to support clients and offered to customers in a variety of SaaS and outsource support models. This close relationship is an incubator for collaboration and innovation through the entire lending process.
