

## FOR IMMEDIATE RELEASE

### **Indecomm Integrates eRecording Platform with ResWare™ Title Production Platform**

*Collaboration Accelerates Efficiency and Accuracy in Mortgage Recording*

#### News Highlights:

- Indecomm integrates [InteleDoc Direct™](#) with Adeptive Software, the developer of ResWare's title production platform
- Features Recopedia, national recording knowledge base/fee calculator for paper and eRecording
- Title agents benefit from processing and recording in a single platform
- Collaboration demonstrates Indecomm commitment to title industry

St. Paul, MN – August 30, 2016 - Indecomm Global Services, a leader in business process outsourcing, learning, and technology solutions, announces that its InteleDoc Direct™ (IDD) eRecording Platform with Recopedia has been integrated with the ResWare title production platform. This collaboration brings Indecomm's latest innovation in eRecording, InteleDoc Direct™ with the Recopedia toolkit, to ResWare's title platform. Indecomm is the only company in the industry to enhance a web-based eRecording platform with a toolkit that provides current county specific requirements and fee calculations for all real estate document recordings, rather than just prompts and tips about eRecording only county requirements. The inclusion of this breakthrough technology into ResWare will dramatically boost the efficiency of title agents, enabling them to meet all their business processing and recording needs in a single platform.

“Indecomm’s automated solutions enhance a variety of business process applications used by title agents,” said Rajan Nair, CEO, Financial Services Division, Indecomm Global Services. “IDD’s integration with ResWare is an outstanding example of enhancing the overall recording experience for title agents.”

ResWare focuses on streamlining the title recording process, which is challenged by slow turn times, high employee turnover, and inconsistent results. ResWare provides enhanced automation and access to a single platform that manages all of the documents, vendors, and processes. It automatically alerts the appropriate individuals when they must complete a task.

“Indecomm and ResWare have collaborated to allow their customers to achieve the most that technology can supply to their bottom line,” Nair said. “It is a continuing commitment, which lies at the heart of our business goals.”

InteleDoc Direct™ is part of a portfolio of Indecomm’s proprietary technology platforms, including iTitleHub™, Kaizen® Income Analyzer, and Publishing Portal, whose purpose is to decrease risk and enhance productivity.

“Adeptive Software is delighted with the opportunity to work with Indecomm, a leading global technology company with deep expertise in document management,” said Bryan Buus, President, Adeptive Software Corporation. “Together with our ResWare platform, we are at the forefront of providing services to title agents.”

### **About Adeptive**

Based in Boulder, Colo., Adeptive develops products that deliver efficiency, flexibility and scalability for the real estate title industry. Adeptive's flagship product, ResWare™, is a title production and process flow software package that can be scaled and customized for any size company. Used by many of the industry's leading companies, ResWare ensures that transactions are accurate and efficient and that employees are executing the same way every time, reducing missing information, lost productivity and costly errors. Adeptive is the fastest growing company in the title and escrow software market, thanks to ResWare's continued strong adoption by agents and underwriters across the country.
